Found: Original granite stone, 15x10x6, firmly set with '1/4' marked on north face. Found a large scattered mound of stone 1 foot north of monument, 4 foot diameter 2 feet high. This corner was likely perpetuated with large stone mound by mining surveys of 1920's Therefore, I re-raised the large scattered mound, 5 feet in diameter, 2 ½ feet high. 1 foot north of monument. The '1/4' is very faded. Therefore, I verified the position with topo calls east and west of corner. They checked with in ±.5 feet.
