Found: Nothing found, therefore I accept county road intersection as the best available evidence of the corner position. This is a disputable position. Centerline of roads bear North, East, and West and a 4"x4" concrete right-of-way monument bears South approximately 66' distant. This road intersection = midpoint between right-of-way fences, also an old North-South fence line bears South approximately ¼ mile which matches this intersection as well.

Latitude: 46°39'21.9954" N
