Sources:

This map displays land status information contained in a statewide data layer that was developed from many sources and continues to be corrected and updated. Much of the public lands information was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates (especially for tribal lands and private lands) were added by the University of Montana, Wildlife Spatial Analysis Unit, during 1996-1998, and since, periodically by The Montana Natural Heritage Program.
