

# Mean Center of Montana Population, 1990-2010

## Population Center By Year

-  1990
-  2000
-  2010

The Mean Center of Population marks the balance point that would exist if each person in Montana were standing on a rigid plane at the geographic center of the Census Block that they were counted in.

Year	Latitude	Longitude	Legal Description
2010	46.81897	-111.29647	T12N R3E S12
2000	46.84634	-111.21005	T13N R4E S34
1990	46.87668	-111.02573	T13N R6E S19
Geo	47.05282	-109.63333	T15N R16E S24
